(Formerly Crystal Waters)

Generations Healthcare Management is proud to be the managing organization of both Berea Lake Towers and Crystal Waters Retirement Communities. Beginning with our founder and father, Robert Coury, we continue his legacy through the second generation of family providing the support and services that you have come to expect and rely upon through the years.

It is in this spirit, we have chosen to celebrate our 50 year anniversary of “Generations caring for generations” by changing the names of both of our communities. *There is no change in ownership, management or staff of either community.* This name change is to unify our communities and further cement our commitment of providing exceptional care to our residents!

With our gratitude and sincerity,

*The Robert Coury Family*
